

Proposal for
CSS Electronics Global

Twilio is the most trusted communications platform in the world

QUICK FACTS ABOUT TWILIO

- Reliable, Flexible Communication APIs
- Resilient, Elastic Super Network
- ISO27001 Certified & GDPR Compliant
- 7 Million Registered Developer Accounts
- 99.999% Uptime

Twilio is trusted by over 7 million developers and 150,000 businesses, including the world's best companies—Morgan Stanley, Facebook, Airbnb, Coca Cola, Nordstrom, the American Red Cross and thousands more—leading to 800 billion interactions annually.

- Market leader: Twilio has been named the CPaaS category leader by Gartner and IDC.
- A platform you can trust: Twilio's resilient platform is powered by its ability to deploy 10s of thousands of improvements with zero maintenance windows and an unparalleled uptime of 99.999% through its Super Network. Twilio runs 2.2 million voice quality and connectivity tests annually to ensure the highest performance and optimized routing in real time. Offering an array of safeguards, Twilio is GDPR-compliant and is self-certified under EU-US Privacy Shield Network.
- Multi-channel reach and flexibility: Twilio provides an expandable solution that can grow with your communications roadmap including voice, SMS, video, IP messaging, LINE, WhatsApp, authentication services and more. We support many built-in channels and enhance them with full data analytics, speech recognition, and advanced contact routing.
- Operational excellence: Our Operational Maturity Model (OMM) makes Twilio prioritize service reliability through constant platform updates, consistent uptime SLA, and leading and evolving security practices.
